

THE GREAT INDIAN EDUCATION STORY

POPULATION

(6-14 Age Group)

ON THE LOOK OUT

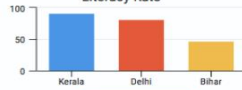

10.74Cr are boys and 9.55Cr are girls of a total population of 20.29Cr

The males are more educated than the females in different socio-economic group

The analysis suggests that the pupil teacher ratio should be low for better literacy rate

Literacy Rate

Bihar has the worst literacy rate in India because pupil teacher ratio is very high

Literacy Rate

Gross Enrollment

Manipur

129.65

Lakshadweep

58.75

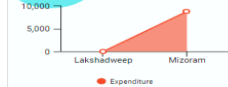

Manipur has the maximum gross enrollment whereas Lakshadweep has the least gross enrollment

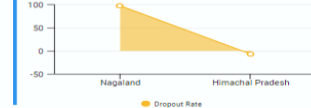

According to the data Manipur has the highest enrollment in the age of 6-10 for girls and Nagaland has the lowest enrollment as they reach the age of 14

SARVA SHIKSHA ABHIYAN

Since the expenditure is less in Lakshadweep hence the Gross Enrollment is low

DROPOUT RATES

ANSWERS TO DROPOUT REASONS

1. Influence of family and household.
2. Poverty.
3. Required for work on farms and businesses.
4. Not safe to send girls.
5. No proper facilities for girls.
6. School too far, transport not available.

Dropout rate higher in case of boys due to lack of interest in studies whereas in case of girls as there are no female teachers the dropout rate is higher.

SOLUTIONS

The answer to all the problems lies here:

1. Awareness towards education should be increased- specifically in rural areas
2. Education is the prime concern.
3. Sarva Shiksha Abhiyan(SSA) should be encouraged and implemented.
4. Quality Education should be encouraged by teachers
